POSITION SUMMARY:

The University of Wisconsin Department of Pediatrics is looking for a Clinical Research Scientist to support current and developing clinical research activities involving investigators in several pediatric divisions as well as the Pediatric Clinical Research Coordination Program. The successful candidate will identify research problems, design research methodologies, and prepare research results for presentation to professional organizations and/or for scholarly publications.

The School of Medicine and Public Health has a deep and profound commitment to diversity both as an end in itself but also as a valuable means for eliminating health disparities. As such, we strongly encourage applications from candidates who foster and promote the values of diversity and inclusion.

POSITION DUTIES: [List of Duties](#)

[JEMS - Duties tab: Principal Duties](#)

INSTITUTIONAL STATEMENT ON DIVERSITY:

Diversity is a source of strength, creativity, and innovation for UW-Madison. We value the contributions of each person and respect the profound ways their identity, culture, background, experience, status, abilities, and opinion enrich the university community. We commit ourselves to the pursuit of excellence in teaching, research, outreach, and diversity as inextricably linked goals.

The University of Wisconsin-Madison fulfills its public mission by creating a welcoming and inclusive community for people from every background - people who as students, faculty, and staff serve Wisconsin and the world.

For more information on diversity and inclusion on campus, please visit: [Diversity and Inclusion](#)

[Template language for all postings](#)

DEGREE AND AREA OF SPECIALIZATION:

PhD or equivalent experience and/or knowledge required to conduct research activities at the level of a principal investigator or co-investigator. A background in Epidemiology is preferred.

[JEMS - Quals tab: Degree Specialization](#)

MINIMUM YEARS AND TYPE OF RELEVANT WORK EXPERIENCE:

This individual will have been trained in the conduct of clinical research, and possess strong communication/interpersonal skills, organizational/management expertise, technical/statistical acumen, and a background in healthcare.

The pay rate provided is the minimum for the position. Prefix level and pay rate will be determined at the time of hire based on candidate qualifications and experience. A minimum of 7 years experience is recommended for appointment at the senior level.

POSITION SUMMARY: This individual will provide patient care, teaching a variety of learners, and execution of research/scholarly activities.
The School of Medicine and Public Health has a deep and profound commitment to diversity both as an end in itself but also as a valuable means for eliminating health disparities. As such, we strongly encourage applications from candidates who foster and promote the values of diversity and inclusion.
[JEMS - Duties tab: Position Summary](#)

PRINCIPAL DUTIES: Provide patient clinical care.
Teach to a variety of learners, including medical students, residents and fellows. Teaching can occur within the classroom, small groups and lectures, as well as in the delivery of clinical care.
Carry out independent research/scholarly activity in an area of interest to the candidate and the division. These pursuits can take many forms and will often be executed in conjunction with clinical activities, but are not limited to that venue.
